**Subject : MATHS**

Q1. Write Roman numerals for the following Hindu Arabic Numerals in a creative way

- a) 1,2,3,4,5,6,7,8,9
- b) 10,20,30,40,50,60,70,80,90
- c) 100,200,300,400,500,600,700,800,900, 1000

Q2. Get up early in the morning every day during summer break and walk for 15 minutes daily. Find the answer

of the following questions

a) How many seconds you walked in a week?

b) For how many minutes you walked in holidays?(starting from 18th May to 30th June)

c) For how many seconds you walked in a month?(30 days)

Q3. Write the weight of your family members and find its continued product

For example

Father's weight = 85 kg

Mother's weight = 63 kg

Your weight = 28 kg

So.  $85 \times 63 \times 28 = \dots\dots\dots$ kg

Q4. Make a Quiz of 10 questions from the topics taught in the class. Prepare the answer key for the quiz on a separate sheet.

NOTE: Do all the work given on file papers or coloured sheets and put them in your portfolio.
