> The goal of life is living in agreement with nature.

Nature is made of everything we see around us – trees, flowers, plants, animals, sky, mountains, forests and more. Human beings depend on nature to stay alive. Nature helps us breathe, gives us food, water, shelter, medicines, and clothes. To fulfill the demand for these products, human beings have now engaged in the slaughter of trees and the destruction of nature.

It is the need of the hour now to reduce natural damage, reuse goods and recycle used elements to form newer ones. People from all parts of the world should come together to lessen the pressure on nature and restore its balance.

Subject: English

THE IMPORTANCE OF TREES

REMOVE CARBON DIOXIDE — REDUCE EROSION — PROVIDES FRUIT — PREVENTS FLOODING — PROVIDE MEDICINE — COOLS OUR HOUSES — ADD OXYGEN

PLANT A TREE! — SAVE OUR EARTH

1. Write a paragraph of about 100 words on the topic 'Trees:Our Saviours'.

2. Make a 'Thank you' card for your parents saying how much you love them and are grateful for all that they do for you.

3. Word Collage : **Create a collage of nature-themed words eg.** tree ,sun, river, birds, hills, **animals. Use magazine cutouts or your own drawings to represent each word. Arrange the words and images on a coloured sheet to make a visually appealing artwork.**
